Find your flow with Intuit

Environment matters. Employees want more from their office than impersonal cubicles. They want spaces that nurture their creativity. Spaces that feel intuitive.

Intuit's designs help you create a living work space – one that teams move through, matching the environment perfectly to their task.

Agile, creative, collaborative – the spirit of the office breakout space brought out onto the main floor.

How we make work better

Our way of working has changed. Doing your best work isn't just about sitting at a desk all day. It's the creative problem solving, agile collaboration, and the feeling of community we search for in the office.

Our designs have evolved to meet this shift. The flexibility and innovation at the heart of each one place intuitive human needs at the center.

We've taken the spirit of the breakout space and divided it into 4 distinctive work zones - each designed to meet a particular need to encourage collaboration, creativity and connection.

You'll find products to support the head-down focus of desk work, collaborative spaces that encourage interaction, lounges for socialising, and flexible seating for when people need a break from their desk. Having these varied spaces available encourages employees to work in a way that suits them, and we help you design the perfect flow.

Our 4 work Zones use modular and multi-functional solutions to make the most of every area of the office, giving an agile space that fosters playful creativity - because comfortable employees work better.

The world is moving fast - with Intuit, you make sure office space can keep up.

Welcome Zone

Social Zone

Collaboration Zone

Concentration Zone

Welcome Zone

Build an endless sweep of welcome

First impressions are everything. The Welcome Zone is where you put visitors at ease with warm and inviting sofas, and interesting features.

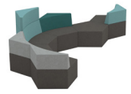
Create a warm Reception for visitors to soak up the atmosphere, an elegant Waiting Lounge for restful moments during a busy day, or a place to socialise, where barriers are broken over a cup of coffee. Set the stage for a positive meeting with Intuit's welcoming aesthetic.

Reception:

Create a warm and welcoming first impression with our free-flowing modular **Manhattan Hexa** or **Penta** designs. Built to fit together in endless combinations, you can create a space that fits with your company aesthetic.

Build your Reception with these innovative pieces:

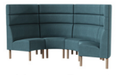
Manhattan Hexa



Manhattan Penta

Meeter

Sofi



Meeter Round

Waiting Lounge:

Whether you're waiting for a meeting with a colleague, or about to head into an interview, create a comfortable stopping point with our **Meeter** sofas, or modular **Manhattan** seating systems ensures no-one will be bored. As we move towards a more flexible office environment, these areas can double as perfect time-out spaces for employees in the middle of a long day.

Create your Waiting Lounge with these welcoming products:

Meeter Sofa

Manhattan Hexa

Manhattan Penta

Hello Coffee:

The world can be fixed over a cup of coffee, so why not weave in opportunities for problem-solving magic through your offices? Take a seat on the **Sans** sofa and brainstorm that tricky issue you've been stuck on with a little help from your friends.

Curate your Hello Coffee space with these warm pieces:

Meeter

Sans

Sans armchair

Social Zone

Harness the creativity of the hive mind

In our post-Pandemic world, the office also serves as a space where people can get together. When you approach your space with collaboration and socialising in mind, then you create somewhere your employees feel nurtured.

The office shouldn't be a place to power through your to-do list, missing lunch, and then heading home. Unscheduled meetings, and serendipitous connections will create a sense of joint purpose. Use your space to encourage a spirit of fun, and you might just spark the next big idea.

So, branch out from traditional office layouts, and experiment! Providing a choice of work settings, from inclusive lounge spaces to soundproof private discussion areas, will encourage meaningful connections and boost productivity.

The In-Between Space:

Even the smallest space can lead to fruitful conversations if you plan it the right way. The **August** series of sofas and armchairs with sound-absorbing qualities allow you to create an area to duck out and have those quick one-on-one conversations away from busier working areas.

Build your In-Between Space with these pieces:

August

August Workbay

Sigmund

Meeter Workbay

Meeter Sofa

Frankie

The Lounge:

Taking breaks is the key to a productive day. So make sure your employees feel nurtured with cosy, homely spaces dotted throughout your offices. Fill them with soft seating, like our **Ben** sofa, and useful tables.

Furnish The Lounge with these comfortable designs:

Ben

Frankie

Kuubik

Alfred

Gallery:

Office layouts don't have to be predictable. Our innovative pieces help you create zones that invite connection whatever your restrictions. Use the **August Wall and pouffe** combination to create areas of circulation, where colleagues can have encounters that brighten their day.

Create a Gallery with these innovative products:

Sans

August Wall

August

Meeter Sofa

Collaboration Zone

Tackle your next problem together

If you want to tap into the benefits of connections, then a collaboration space needs to be the focal point of a business.

But it's not just as simple as popping a giant table and a whiteboard in a room and hoping for the best. As the way we interact changes, you'll need to think about how accessible your location is and the technology you need.

*More than half of office workers consider team interaction as the main reason to head to the office.**

* Source: U.S Workplace Survey Winter 2021

With our designs for the Collaboration Zone, you can create agile touchdown spaces that tap into all the benefits of bringing employees closer together, and supercharge creativity.

Stand-up:

Not all collaboration needs to be lengthy. When you need to touch base quickly during a project, you don't need to book a whole meeting room for hours. Instead, stand-up spaces can make the most of corner areas using our **Rolf** mobile table and **Hubert** rocking chairs. Share key information quickly, get everyone on the same page, and get on with your day.

Construct your Stand-Up space using these pieces:

Hubert

Rolf

Loop, Duo, Twin

Sigmund

Studio:

For times when a separate room is necessary, make it as versatile as possible with flexible furniture. Our **Rolf** mobile table and **Hubert** rocking chairs are easily moved around, and perfect for active collaboration sessions.

Build your Studio with these flexible designs:

Hubert

Rolf

Loop, Duo, Twin

Living room:

In search of the ultimate versatile space? You need a micro-office. Fulfilling functions as diverse as individual desk work to a relaxed mentoring session, to presenting your next great idea to a small team.
A micro-office space makes you feel at home, without feeling isolated.

Curate your Living Room with these intuitive designs:

Ben

Kuubik

Concentration Zone

Hone in on the task in hand.

Only increased health measures are seen as more important than distraction-free spaces at work. As we transition back to the office, it can be tough to get used to all this background noise again.

Our curiosity-driven design has created products with sound-absorbing qualities, and distraction-busting features. So in the Concentration Zone you'll find innovative ways to create privacy, and tools to enhance focus without feeling isolated. Give workers the gift of concentration – and reap the rewards in productivity.

*Over a thrid of office workers crave some quiet during the workday, and they're struggling to find it in our open-plan offices.**

* Source: U.S Workplace Survey Winter 2021

Dialogue:

Concentration isn't always a solitary pursuit. When you need 2 sets of eyes on the problem, but you still need to avoid distractions, then the **August** range is your new BFF. Grab your partner in crime and settle in for some serious work.

Have a Dialogue with these innovative designs:

August

Frankie

Sans

Nest:

The admin nightmare of trying to book a private room for a delicate conversation can be left far behind with our sound-absorbing **August and Meeter Workbays**. Take advantage of the seclusion between the acoustically shielded walls for a private discussion.

Build a Nest with these creative pieces:

August Workbay

Meeter Workbay

Secluded cell:

For when perfect focus is needed a Secluded Cell provides. Find peace and quiet within the **August Nook**, whether you're working on something private, or you just need to concentrate with no distractions. Perfect for dotting around the outside of an office, you can create private spaces with minimal effort.

Furnish a Secluded Cell with these focused products:

August Nook

Phonebooth:

And if your conversation is really private? Then the **Intuit Booth** is your solution. Provide your employees with the space to take private calls – because life is complicated, and we're all a little more used to porous work/home boundaries now.

Intuit Booth

Things have changed

You may have noticed that there have been a few changes to the office in recent years. Hybrid working, new technologies, health concerns, a constantly evolving economy. Rather than a gentle breeze, a raging storm has turned over the tables and left employers wondering how it all works now. Sure, you could sit back and welcome “the return to normal”. You could buy the same old chairs, desks, and whiteboards.
But “normal” is not returning.

The focus has changed, bringing the creative vibe of the breakout space out into the rest of the office. This new heart of the office not only increases opportunities for creativity, but also encourages attendance and attracts the best new talent. Who wouldn’t want to work in an atmosphere of collaboration and connection?

We bring a breath of fresh air to the workplace.

Intuit was created to nurture this atmosphere. We want to help you address the massive change to the office environment. And we want to use our spirit of curious innovation to do it.

We are here for:

- Curiously exploring and Innovating for the office of the future, and for right now.
- Designing spaces and Creating furniture that intuitively meets your team’s needs.
- Supporting the creative and collaborative vibe that will produce the best work.

Building up from our roots

Intuit was born from Softrend, an established (player) in the upholstered furniture space since 1997. We bring with us Softrend’s extensive experience and legacy of creating soft and comfortable furniture. And we’re adding our unique dash of curiosity and innovation, so we can upend the world of office furniture.

All our products are handmade in our own Estonian factory. We manage the process from the glimmer in our designer’s eye to the finished product. So everything meets our sustainability and quality standards. And we’re as agile as we like our products to be, with our small size gifting us flexibility, a personal approach, and the ability to react quickly to what you are asking for.
A new wind is blowing…

From Intuit, you can expect furniture that fits the way things actually work.

Social Zone

Concentration Zone

Designed for the Social and Concentration Zones:

- Encourage focus and seclusion
- Host private meetings
- Divide your space organically
- Cut down on background noise

Meet the office sofa of the future.

Sound absorbing qualities make the August range a perfect choice for your intuitive work-place, providing the levels of sanctuary needed at different points in the day. And the chic design keeps your office aesthetic as fresh and dynamic as your team members! The functional nature of the August has been packaged in a compact, modest form that's designed to fit in with any interior.

The epitome of our agile ethos, the August sofa and armchair is available in 3 heights.

For your Social Zone the H1 and H2 sizes invite you to sit down with a friend and catch up on the day. For your Concentration Zone, the H3 design creates an island of privacy where you can hold mini-meetings, delve into paperwork or make important phone calls within a busy office.

Find your perfect mix with August.

Collaboration Zone

Concentration Zone

Designed for the Collaboration and Concentration Zone:

- Give the option of focus and seclusion
- Hold your own private meeting
- Divide your space organically
- Cut down on background noise

Looking for the perfect spot to have that important conversation?

The August sofa set provides an easy solution for creating a workbay where you can go to get some privacy or have meetings. The August Workbay is an integral part of your Concentration Zone, providing an opportunity to step away from the noise, and find the focus you need.

The only thing it takes is to connect two roofed Augusts with a partition wall. Sound-absorbing qualities make it easy to carve out a space of peace and quiet within an open-plan office. Distraction-busting high sides give you the focus you need to unravel a tricky problem with a colleague. Its compact and modular style means that the Workbay can be placed in islets, rows, or whatever works best for your Concentration Zone.

Shut the world away, and unlock your productivity.

GOOD SOUND-ABSORBING QUALITIES

A peaceful green hideaway

Transform your office into a lush forest and show that you care. Use flowerpots of two different heights as clever space dividers to close yourself off from the endlessness of the open office floor plan. The 360-degree rotating wheels allow you to give your office space a new floral face-lift, anytime.

Order these mobile plant dividers, cleverly lined with acoustic foam and optionally covered in acoustic felt on all sides, to muffle noise and create a soothing environment for employees. Or opt for a more multifunctional design that puts a spacious shelf on one side.

Concentration Zone

Work from a comfy couch in solitude, away from judgmental eyes.

A cozy nest in the middle of the office

Some tasks demand a different level of immersion. Some require that you get up from your desk, grab your laptop and slip into a more comfortable corner to allow your thoughts room to roam. The Hide has been specifically designed to be a soft nest to which office nomads can retreat.

Thanks to its modular design, the seat, screen and support surface can be positioned on the frame in multiple directions. Its mobility means that the Hide can be easily repositioned in whichever way you need it, whether it be facing an inspiring view from a window or turning away from the noisy office crowd.

Deliver quiet with Booth

You need to make a call. But you'd rather the whole office didn't listen in. Booth provides a quiet oasis, so you can focus on your conversation, without distractions.

We saw an opportunity to make the basic phone booth a much more pleasant place to be. If you've spent time in cramped and claustrophobic phone booths before, you'll marvel at how Booth opens up the space. Its special trapezoid design enhances your cognitive comfort, while eliminating annoying echoes. And its rocking and rotating seat gives you room to move, without banging your elbows on the walls every 5 seconds.

Booth harnesses technology and design to provide an intuitive space for your special task. With sound absorbing upholstery and acoustic panels, Booth dampens noise from every direction. Its motion sensor fresh air ventilation system and adjustable LED lighting help you create exactly the environment you work well in. While its wheels mean you can relocate it to anywhere in your office.

Concentration Zone

Designed for the Concentration Zone:

- Enjoy a room that feels bigger on the inside

More Space

Booth's trapezoid shape is especially designed to feel spacious. It enables you to choose different positions. Its wide glass panels help you feel part of your wider surroundings, without being disturbed by them. And make the whole booth full of light. You can swing and turn on your chair, adapting your setup to whatever you need to work on.

Kuubik

Sofa table

Design: Argo Tamm

Sans - the perfect place to wait a while.

Welcome Zone

Designed for the Welcome Zone:

- Make your visitors feel at home
- Offer up moments of rest and relaxation
- Divide your space organically

Sit back and relax

Designed for use in public spaces, Sans is more than just comfortable – it's so cozy you'll probably never want to get up again!

We all want to give a good first impression, and furnishing your Welcome Zone with a Sans Sofa shows visitors you mean business, and you care about people. With soft padding and a thin metal plinth, you can have comfort even in smaller spaces.

Comfortable and practical for a communal space, the Sans is available as a classic sofa, or with an integral table. Pop down your coffee cup, lean back, and enjoy the clean lines and sociable layout.

With its modular design and high walls option, Sans can also be used to increase privacy and enhance acoustics in your Concentration Zone.

Stand-Up Creative Corner

Design: Iseasi

Team interaction is the new primary purpose of the office across all generations of workers.

Collaboration Zone

Dynamic and flexible space for collaboration

So how do we get the creative juices flowing? Simple: design for interaction and ideation. We need dynamic and flexible space where furniture doesn't hamper us, but instead empowers our collective creativity – without us even being aware of it. Innovative environments that support working together ask for different type of settings and furniture than we're used to seeing in an office. The Creative Corner invites new ideas and new kinds of behavior into your office, and gets them working for you.

Designed for dynamic collaboration, the mobile **Rolf table** can be easily moved around in your space. Given its height, you can work at the table on your feet or by resting your weight on one of our **Hubert pouffes**. Chairs with raised seating keep your back straight and your mind sharp. They set you no barriers. Jumping up to throw yourself into the discussion is quick and easy.

When it comes to dynamic collaboration, there's no place like the office.

Designed for the Collaboration Zone:

- Encourage active problem-solving
- Bring heads together at a moment's notice
- Make your office flexible

Hubert and Hubert Mini

High and low pouffe

Design: Iseasi

Because the best ideas are a little different.

A chair that lets you brainstorm in style. The sleek frame and raised seat of the Hubert high pouffe help to support ergonomic posture effortlessly, while the 360° swing leg lets you swivel and rock while ideating – great for productive, dynamic team meetings. Simple to manoeuvre, these chairs help you create a welcoming and agile space at a moment's notice.

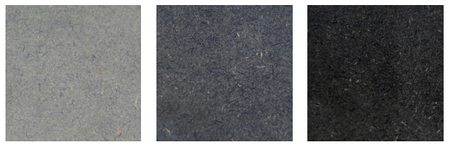
Valchromat® colour options for additional table

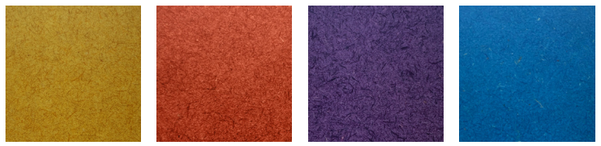
Applicable: August, Frankie, Kuubik, Meeter

Standard colour selection:



Light grey | Grey | Black

Custom colour options for Kuubik:



Yellow | Red | Purple | Blue

Valchromat® is an innovative wooden board that combines the natural properties of wood with bright colours. Because Valchromat is about 30% more dense than usual MDF boards and is coloured throughout, it is also more resistant to mechanical damage.

In the Valchromat production process, painted wood particles are glued together with a special low-formaldehyde resin with good lubricity. Small wood particles create a delicate sparkling pattern on the board, so differences in colour and pattern may sometimes occur.

- Custom colour at customer's request from Valchromat colour catalogue
- Additonal optional cost will be added
- Custom colour is not stock material, extra delivery time 2-3 weeks

NON TOXIC

Ecological organic dyes. Formaldehyde emissions are within the limits set by European standards.

Colour options for metal frame

Applicable: Alfred, August, Frankie, Kuubik, Meeter, Penta, Sans

Standard colour options:

White RAL 9016 | Grey RAL 7030 | Graphite RAL 7022 | Black RAL 9005

- Custom colour choice at customer's request from RAL catalogue
- Custom colour is not stock material, it is necessary to specify the minimum quantity, extra delivery time 2-3 weeks

Custom colour options for Kuubik:

Yellow RAL 1032 | Red RAL 3016 | Purple RAL 4007 | Blue RAL 5009

Solid wood finishing options for legs and leg frames

Applicable: Alfred, August, Intro, Meeter, Rolf, Sofi

Whitened | Natural | Dark | Wenge | Black

High-pressure Laminate

Applicable: August, Frankie, Meeter, Penta, Sans, Rolf

Custom colour is not stock material, it is necessary to specify the minimum quantity, extra delivery time 2-3 weeks

Formica Infiniti™
Matte, fingerprint-resistant, high-pressure laminate.

As beautiful as it is durable, Formica Infiniti® Laminate features a soft-to-the-touch super matte finish, resists fingerprints, has thermal healing capabilities and built-in antimicrobial surface protection.

Abet Polaris is smooth and velvety to the touch, and its surface features are truly extraordinary: it is highly resistant to scratches and heat, as well as being anti-fingerprint.

The curious combination of durability and velvet smoothness gives Polaris a futuristic appeal, making it the ideal choice for ultra contemporary projects, delighting the senses with a pleasant and unique effect.

Fabric collection

Our standard selection includes contract fabrics from different suppliers: Camira, Kvadrat, Gabriel, Nevotex, Agua

Sustainable fabrics

Caring about the world around us we make long-lasting furniture and use fabric leftovers on specially designed products. To minimize our impact on nature even further we have also included several environmental-friendly and recycled fabrics to our standard selection.

Camira's Rivet is designed to blend the aesthetic qualities of luxury woolen apparel with modern performance sportswear, Rivet is a lightly textured hopsack which emulates the swathe of suiting in a well-heeled synthetic. Rivet is made from 100% REPREVE®, a brand of recycled polyester made from used plastic bottles.

Gabriel's Cura is a multi-purpose, two-coloured upholstery fabric made from 98% post-consumer recycled polyester. It fuses modern performance with a warm, casual aesthetics and a soft, voluminous touch.

Blue Company's Dama is an eco-friendly fabric made of recycled wool, suitable for multipurpose use. Wool has very good acoustic qualities - it increases sound-absorbing and that makes it especially good choice to use on our products in open-plan offices.

Easy-clean fabrics

Aquaclean® technology is a revolutionary fabric treatment that allows you to clean stains using water only. This provides you with simple fabric maintenance in the minimum amount of time.

Aquaclean helps to remove the majority of household stains (wine, ink, sauce, fat, mud, chocolate, cream, etc.) making life easier and giving you more time for the more important things.
