### A peaceful green hideaway

Transform your office into a lush forest and show that you care. Use flowerpots of two different heights as clever space dividers to close yourself off from the endlessness of the open office floor plan. The 360-degree rotating wheels allow you to give your office space a new floral face-lift, anytime.

Order these mobile plant dividers, cleverly lined with acoustic foam and optionally covered in acoustic felt on all sides, to muffle noise and create a soothing environment for employees. Or opt for a more multifunctional design that puts a spacious shelf on one side.
