

Conference tables Graf

MARO Office Furniture

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none

Graf

Graf collection features desks, conference and occasional tables and showcases. Glass inserts and chromium plated decorative elements combine well with a minimalist line of the collection.

Graf showcases are available as two options - the first model with top cladding, and the other with additional side cladding and top based on chromium plated plinths. Depending on your needs and the style of your office, you can either choose a showcase with an open segment or glass hinged doors.

TOP

- Chipboard coated on both sides with melamine resin with increased durability - 1st class.
- Chipboard with reduced formaldehyde emission, E1 standard.
- Top finished with 2 mm thick ABS plastic edge with 3 mm radius.
- 18 mm thick board top as standard.
- 8 mm thick glass insert in some models.

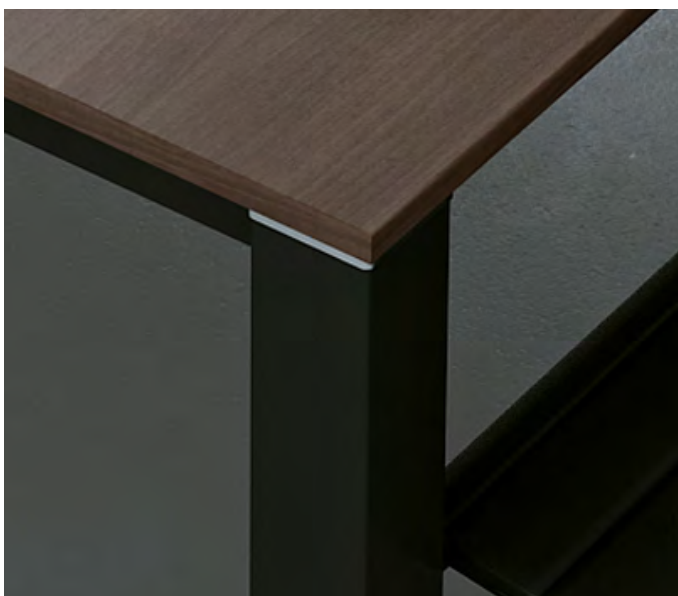

FRAME

- Self-supporting steel structure comprising of welded elements (legs forming the side of the station) joined with two beams.
- Legs made of 70x70 mm profile, other metal elements with 50x25 mm cross section.

EQUIPMENT

- Chromium plated decorative elements at the bottom of the table A-shaped leg and between the top and leg.

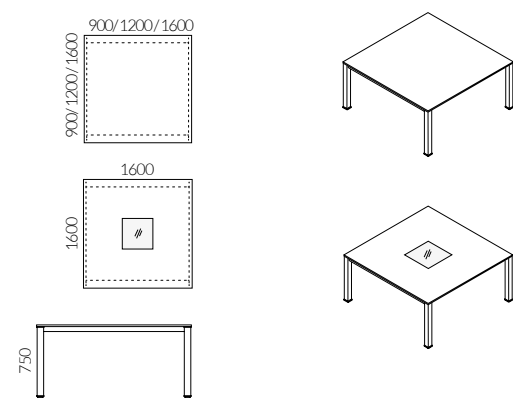

HEIGHT

- Fixed height 750 mm, leveling feet +15 mm.

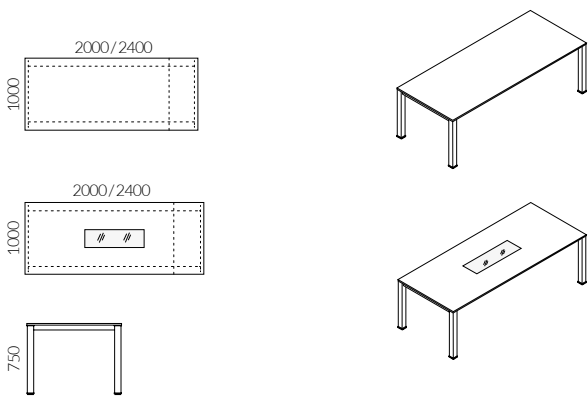

ADDITIONAL INFORMATION

- Colors according to MARO
- In two-piece tops continuous graining as standard.
