

Desk Lano-E 300 IC T

MARO Office Furniture

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none

DeskLano-E 300 IC T

System-eM is a collection of modular furniture which features rectangular desks, desks with tops of different shapes, team desks - Bench desks with electric height adjustment - individual and multi-person workstations and simple conference tables with different tops.

System-eM offers seven leg modules - on four straight legs with round and square cross-section, on four A- and Q-shaped legs with rectangular cross-section, and rectangular, recessed legs -F model.

The collection is completed with Lano C and Lano T modules which have two legs with square cross-section placed on a foot. The desks can also be equipped with different accessories such as upholstered, chipboard partition screens, netboxes and cable channels, as well as underdesk sideboards that support the desk.

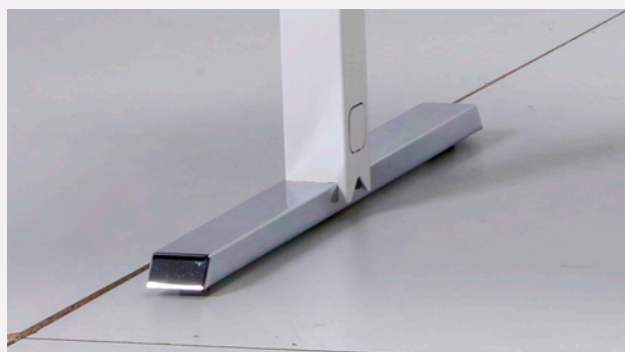

TOP

- Chipboard coated on both sides with melamine resin with increased durability - 1st class.
- Chipboard with reduced formaldehyde emission, E1 standard.
- Top finished with 2 mm thick ABS plastic edge with 3 mm radius.
- Chipboard top 25 mm thick only.
- Sliding top - as an option with a surcharge.

FRAME

- Self-supporting steel structure screwed with two undertop beams.
- T-shaped legs with a rectangular cross-section 50x80 mm at the base.

HEIGHT ADJUSTMENT

- Electric height adjustment: 625-1275 mm for desks with feet Lano-E 300 IC T.
- Desk movement speed - 38mm/s.
- Plus control panel as standard.
- SUPERIOR or PREMIUM control panel as an option with a surcharge.

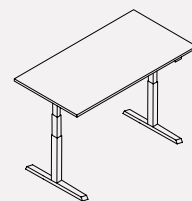

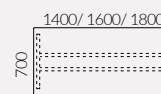

CABLE MANAGEMENT

- Horizontal: fixed metal cable channel, fold-down cable channel or plastic cable clasp.
- Vertical: cable channel - plastic spring.
- Plastic cable outlets and netboxes.

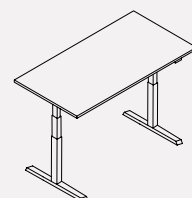

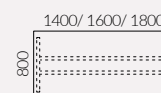

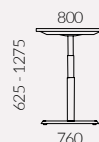

ADDITIONAL INFORMATION

- Colors according to MARO offer p.58
- Additional anti-collision function as an option with a surcharge.
- For additional elements such as: partition screens, cable outlets and PC-holders, please specify location when ordering.
- Possibility to select a chromium-plated foot for Lano-E 300 IC T desks as an option with a surcharge.

System-eM / Equipment

Desks with electric height adjustment

Sliding top

A sliding top makes it easier to access a horizontal cable channel. This practical, optional solution can be used with all types of desks both individual and team desks with electric height adjustment.

- The top is equipped with a slide lock which can be released with a single click.
- The sliding top comes in a set with a fold-down cable channel.
- Sliding range: 120 mm.
- Recommended accessories - brush cable outlet.

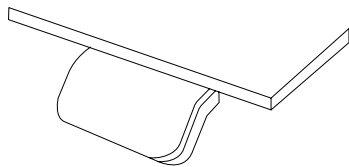

It is possible to fit a suspended front partition screen. It is necessary to clearly indicate the sliding top option while making an order as it affects the structure of the desk.

PLUS control panel

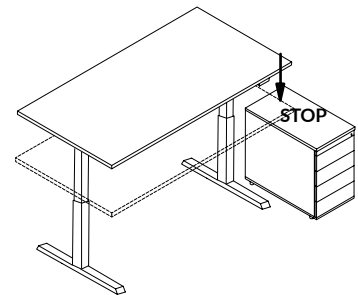

Lano-E 300 IC is equipped with a PLUS control panel.

- Easy operation by tilting the panel up or down.
- Mounted under the top.
- Black.

Anti-collision sensor

Anti-collision sensor comes as standard with every Lano-E 300 model (as an option with Lano-E 300 IC desks).

SUPERIOR control panel

SUPERIOR control panel as an option for Lano-E 300 IC models. Other models - Lano-E 300 are equipped with SUPERIOR control panels as standard.

- Thanks to „memory” function, the panel saves 2 favorite heights, which allows to adjust the height with a single click.
- LED light - reminds when it is time to get up.
- Bluetooth module, allowing to control your desk, using your smartphone, tablet, PC/MAC.
- Black color.

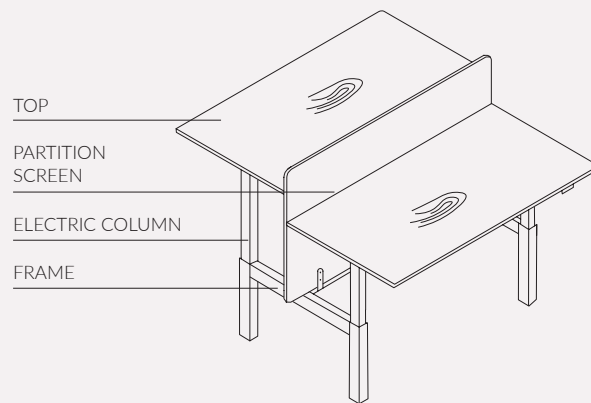

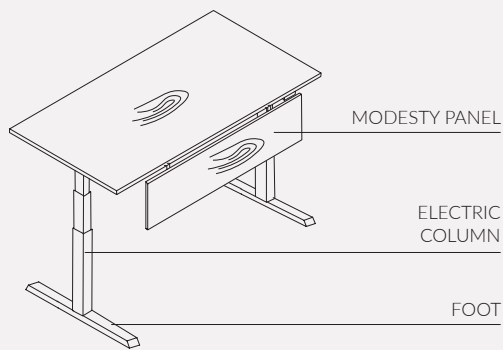

PREMIUM control panel

Premium control panel is optional for Lano-E 300 and Lano-E 300 IC models.

- Thanks to „memory” function, the panel saves 4 heights of your choice, which allows to adjust the height with a single click.
- Display with current height information.
- LED light bar reminds when it is time to get up.
- Bluetooth module, allowing to control your desk, using your smartphone, tablet or PC/MAC.
- Possibility to display a customized welcoming or logo (surcharge + 45 EUR per piece).
- Black.
